DECK 03 / COMMERCIAL STRATEGY

Create desire. Establish value. *Capture demand.*

ResortSport Ltd.®

Independent Brand Concept
OCTOBER 2026

The executive mandate.

Build desire for an unknown brand, establish credibility at a premium price, and create a disciplined path to commercial growth.

THE BUSINESS QUESTION

How does an emerging accessories label become a credible alternative to established leather-goods brands?

THE PRODUCT QUESTION

Which products should lead the launch to balance immediate purchase appeal with long-term brand recognition?

THE MARKETING QUESTION

How does a world of leisure translate into qualified discovery, confidence and conversion?

One proposition. Three engines.

01

Desirability

Recognizable silhouettes and an editorial world worth entering.

PILLARS 01 + 03

02

Credibility

Material clarity, design details and low-friction product evidence.

PILLAR 02

03

Accessibility

Intentional entry products, differentiated price points, and clear value at every tier.

DECK 01 PRICE ROLE

OPERATING PRINCIPLE

Emotional differentiation earns attention; product substance earns the transaction.

Prioritize buyers, not personas.

PRIMARY

The design seeker

OCCASION	A distinctive everyday handbag
TRIGGER	Tired of interchangeable premium bags
VALUES	Silhouette, leather, signature hardware
BARRIER	Unknown-brand trust; uncertain quality at $695

HERO: PORTOFINO

SECONDARY

The off-duty mover

OCCASION	Travel, weekend, hands-free use
TRIGGER	Wants a beautiful bag that earns its keep
VALUES	Ease, durability, modular versatility
BARRIER	Must prove everyday usefulness justifies the premium

ENTRY: RALLY · EXPANSION: MONACO, REGATTA

Lead with distinction. Expand through utility.

Portofino builds recognition; Rally broadens purchase occasions. Validate acquisition economics independently for each segment.

COMPETITIVE CHOICE

Give buyers a reason to switch.

CURRENT ALTERNATIVE	ESTABLISHED STRENGTH	RESORT SPORT'S PROPOSED ADVANTAGE
Polène	Sculptural silhouettes	Distinctive hardware plus leisure-led versatility
Mansur Gavriel	Leather-focused minimalism	Recognizable forms and a more expressive brand world
Cuyana	Everyday practicality	Signature design without abandoning utility
DeMellier	Refined hardware and construction	Architectural design with an off-duty sensibility
STAUD / BY FAR	Expressive fashion silhouettes	Lasting product codes beyond seasonal trends

PMM IMPLICATION Distinctive design earns consideration. Product proof, functional clarity, and credible service policies must overcome the trust advantage of established brands.

The trade-offs a buyer actually makes.

DECISION CRITERION	PORTOFINO / CONCEPT	POLÈNE NUMÉRO NEUF MINI	DEMELLIER SMALL HUDSON
Retail price	$695 proposed launch retail	$540 US	£425 UK
Body size (W×H×D)	24 × 17 × 9.5 cm target	22 × 14 × 12.5 cm	24 × 16.5 × 10 cm base
Weight	≤700 g design target	430 g published	435 g published
Exterior and finish	Protected fine-grain leather; polished aluminum arch (target)	Full-grain Italian calfskin; leather drape	Italian grained cowhide; gold hardware
Carry and closure	Rigid arch handle; detachable strap; top zip	Hand, shoulder, crossbody; magnetic	Top handle, crossbody; magnetic flap
Distinctive strength	Polished aluminum signature; secure top zip	Proven sculptural execution; lighter bag	Established craft and service; expandable sides

PMM IMPLICATION

The architectural handle creates distinction, but may introduce weight and comfort trade-offs. Validate whether its perceived design value outweighs those compromises before positioning it as a competitive advantage.

Compact, not impractical.

24 cm	17 cm	9.5 cm	2.5–3.0 L	≤700 g
BASE WIDTH	BODY HEIGHT	MAX DEPTH	USABLE CAPACITY TGT	EMPTY WEIGHT TARGET

WHAT FITS

Phone up to about 6.7 in, a compact wallet, sunglasses in a slim case, keys, lipstick. Not made for a tablet, a large water bottle or full-size headphones.

ENGINEERING TRADE-OFFS

Prototype hollow polished aluminum and benchmark steel. Compare clear protective finishes for wear. Verify reinforced mounts, strength, comfort and corrosion isolation. Preserve the top zip and check real usable volume.

CUSTOMER PROMISE Carry the essentials comfortably, without compromising the silhouette that makes the bag distinctive.

DECISION GATE Approve the signature arch only after validating strength, finish durability, comfort, capacity and weight. Redesign before production if requirements aren't met.

Five silhouettes. Five commercial roles.

RS-01

Monaco

TRAVEL FLAGSHIP

$695–895

LAUNCH

RS-02

Rally

ACCESSIBLE ENTRY

$275–350

RS-03

Riviera

LEISURE HALO

$595–795

LAUNCH

RS-04

Portofino

RECOGNITION HERO

$695

RS-05

Regatta

EVERYDAY UTILITY

$525–725

PORTFOLIO LOGIC

Five silhouettes establish the brand's breadth. Portofino and Rally lead the proposed launch, balancing distinctiveness with accessible entry. The remaining models expand occasions over time.

HERO PRODUCT / RS-04 THE PORTOFINO

Portofino creates the image of the brand

CUSTOMER JOB	Express distinctive personal style through a recognizable handbag without relying on status logos.
HERO ASSET	A polished aluminum arch handle that establishes the brand's signature design language. Prototype validation pending.
VALUE PROPOSITION	An architectural signature with the ease of an everyday essential.
LAUNCH	Cognac, Avorio, Nero · $695

"A very good entrance."

ENTRY PRODUCT / RS-02 THE RALLY

Rally makes the brand easier to enter.

CUSTOMER JOB	Hands-free utility without sacrificing a considered, design-led aesthetic.
SIGNATURE	A low aerodynamic profile, sweeping seam, fine-grain leather.
VALUE PROPOSITION	A more accessible entry point with everyday relevance.
LAUNCH	Heritage $275 · Cognac, Nero $350
PORTFOLIO ROLE	Rally introduces Resort Sport through everyday utility and a lower entry price, without diluting the design standards established by Portofino.

“Hands free. Plans optional.”

PRODUCT-MARKET FEEDBACK LOOP

Marketing shapes what gets built.

BUYER SIGNAL / QUESTION	PROPOSED PRODUCT RESPONSE	PMM RESPONSIBILITY
Can I trust the quality?	Leather provenance, construction details, finish close-ups	Define evidence required to earn purchase confidence
Will it be comfortable?	Prototype strap width, weight, grip and load distribution	Translate objections into usability acceptance criteria
Is it worth the price?	Prioritize perceptible quality and high-value features without compromising structural integrity.	Identify value drivers and inform feature trade-offs
Will it work for my life?	Strap configurations, usable capacity and interior organization	Specify use cases and validation requirements
What makes it distinctive?	Protect the signature arch and recognizable geometry	Defend differentiated product attributes through testing

PMM leads customer insight and market requirements; Product, Design and Operations own technical specification and feasibility.

OPERATING PRINCIPLE	Customer evidence should influence product requirements before production commitments—not simply inform messaging after development.

INVESTMENT OPTIONS

Focus is an investment decision.

REJECT

Portofino only

UPSIDE

Maximum creative focus; one hero story

TRADE-OFF

$695 entry point; narrow occasion coverage; concentrated launch risk

SELECT

Portofino + Rally

UPSIDE

Recognition hero plus accessible entry; two complementary occasions

TRADE-OFF

More SKUs, distinct messaging, and separate conversion economics to validate

DEFER

All five

UPSIDE

Broad lifestyle ecosystem across more usage occasions

TRADE-OFF

Inventory exposure, production complexity, fragmented spend, and diluted learning

RECOMMENDATION

Launch Portofino and Rally first. Concentrate investment on proving two differentiated purchase propositions before committing capital to the broader collection.

20 permanent options are not 20 launch bets.

20 Permanent Options → **6** SKUs at launch → **70%** Fewer configurations at launch

Portofino
COGNAC

Portofino
AVORIO

Portofino
NERO

Rally
HERITAGE

Rally
COGNAC

Rally
NERO

CHOSEN / SIX SKUS

Two complementary purchase propositions, three colorways each. Concentrate inventory, creative investment and performance learning before expanding the assortment.

EXPANSION / EVIDENCE-GATED

Evaluate Riviera and Monaco after validating demand and unit economics for the launch assortment. Hold Regatta for separate functional testing. Add colorways only when observed demand justifies inventory depth.

Six SKUs: concentrate where the story is strongest.

THE HERO / THREE COLORS

Portofino: Cognac, Avorio, Nero

Cognac showcases leather character and signature form. Avorio creates editorial contrast and fashion appeal. Nero offers a timeless, versatile option. Defer Heritage until demand and material execution are validated.

THE ENTRY / THREE COLORS

Rally: Heritage, Cognac, Nero

Heritage establishes the brand's canvas-and-leather identity. Cognac reinforces continuity across the launch assortment. Nero addresses everyday versatility. Reserve Avorio for demand-led expansion.

WHY NOT FOUR EACH?

Three colorways per silhouette preserve the core brand expression while limiting inventory fragmentation and concentrating early demand signals.

ASSORTMENT PRINCIPLE

Shared Cognac builds collection coherence; differentiated colorways give each silhouette a distinct merchandising role.

Permanent discipline. Seasonal permission.

Heritage

NATURAL CANVAS & COGNAC LEATHER

Avorio

SOFT IVORY LEATHER

Cognac

WARM COGNAC LEATHER

Nero

BLACK LEATHER

LIMITED ISSUES / COCKTAIL COLORWAYS

Curaçao

Negroni

Limoncello

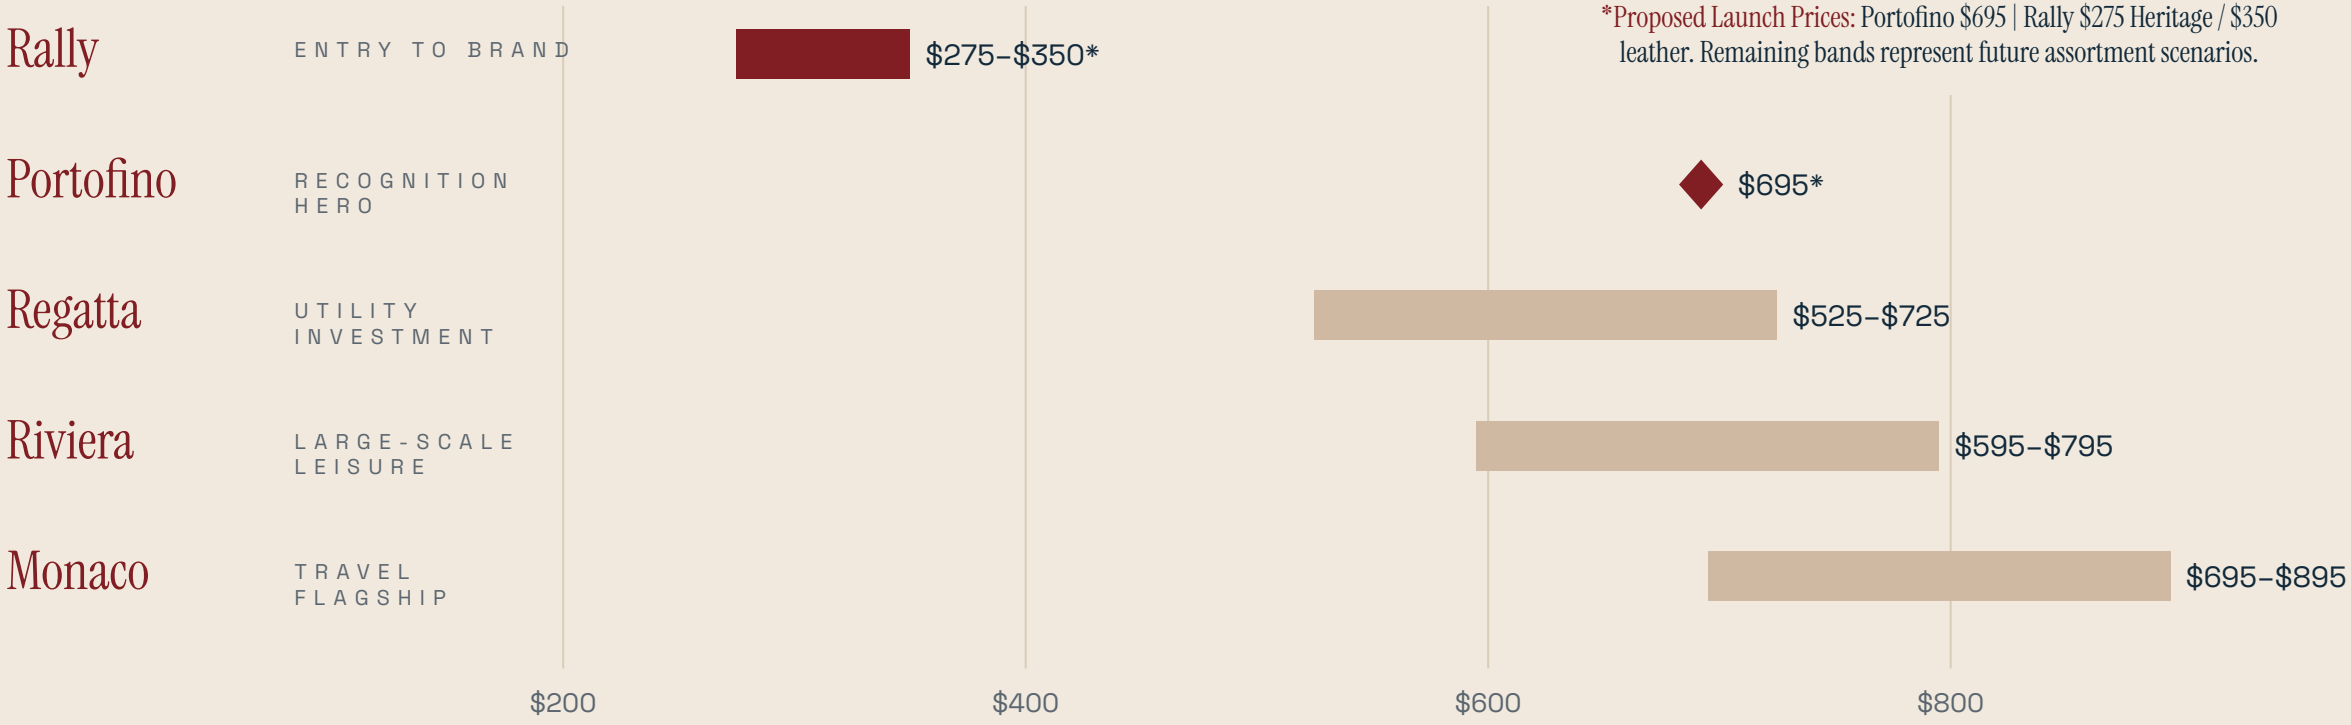

Bijou

SELECTIVE RELEASES / PRODUCT-SPECIFIC / DEMAND-LED

MERCHANDISING PRINCIPLE

Permanent colorways establish continuity. Limited Issues introduce selective storytelling and demand-testing opportunities without disrupting the core assortment.

Price is part of the positioning.

*Proposed Launch Prices: Portofino $695 | Rally $275 Heritage / $350 leather. Remaining bands represent future assortment scenarios.

PRICING THESIS

Create an accessible entry without repositioning the brand as affordable. Price progression reflects product complexity, material investment, and distinct use occasions—not an artificial good-better-best hierarchy.

Price and unit economics must agree

01

Retail price →

Fix the market position and the customer's value perception.

02

Landed cost →

Target a product cost compatible with contribution margin.

03

Servicing cost →

Include packaging, complimentary delivery, free returns and support.

04

Channel cost

Model acquisition efficiency by channel; account separately for fixed creative, partnership and launch investment.

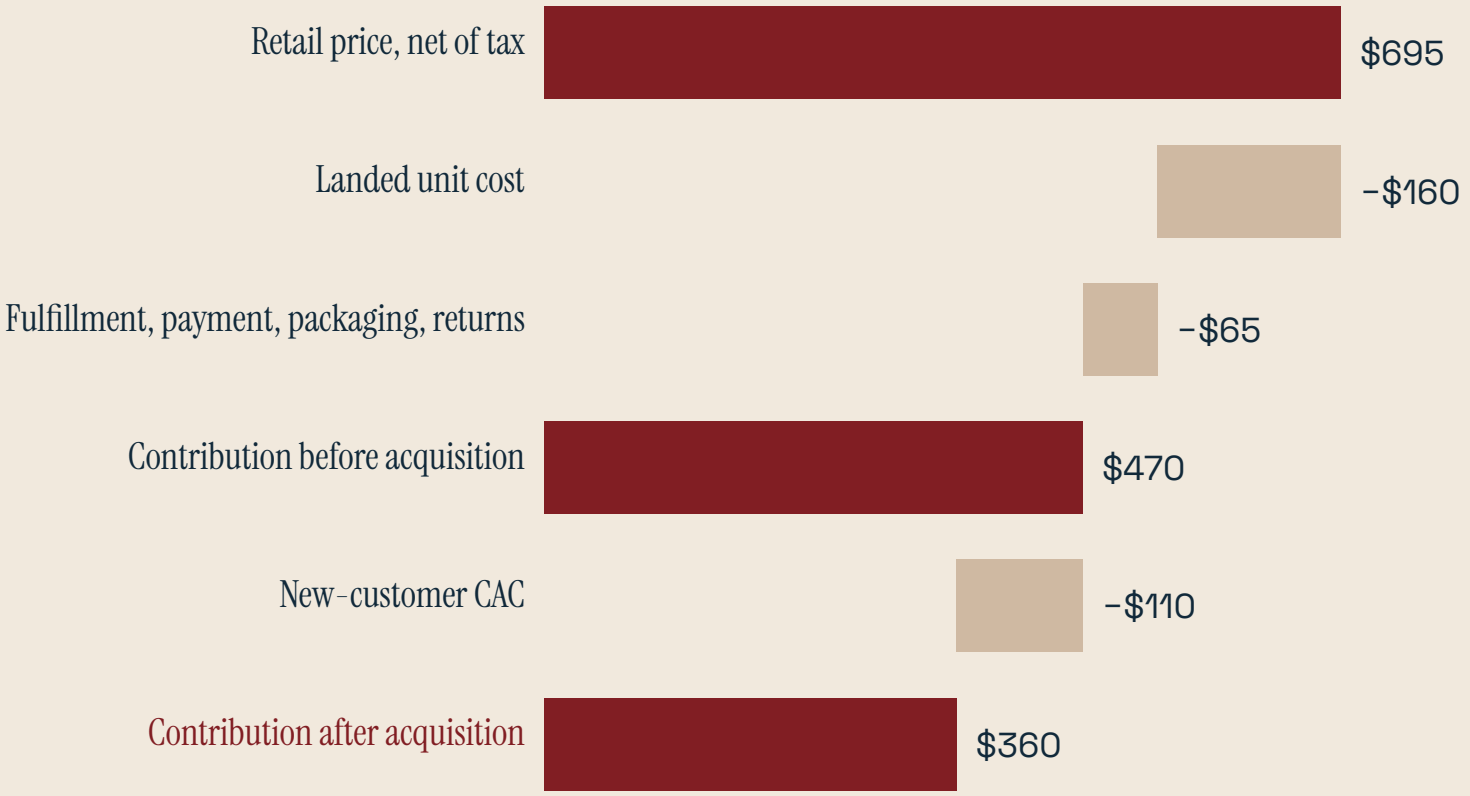

GATE / COMMERCIAL VIABILITY

Advance only when projected contribution supports the required margin after product, servicing, and acquisition costs. Validate assumptions before scaling.

Illustrative planning framework; supplier costs, operating expenses and acquisition performance remain unvalidated.

The margin must support the ambition.

UNIT ECONOMICS: PORTOFINO

51.8%

CONTRIBUTION AFTER ACQUISITION, AS A SHARE OF NET REVENUE

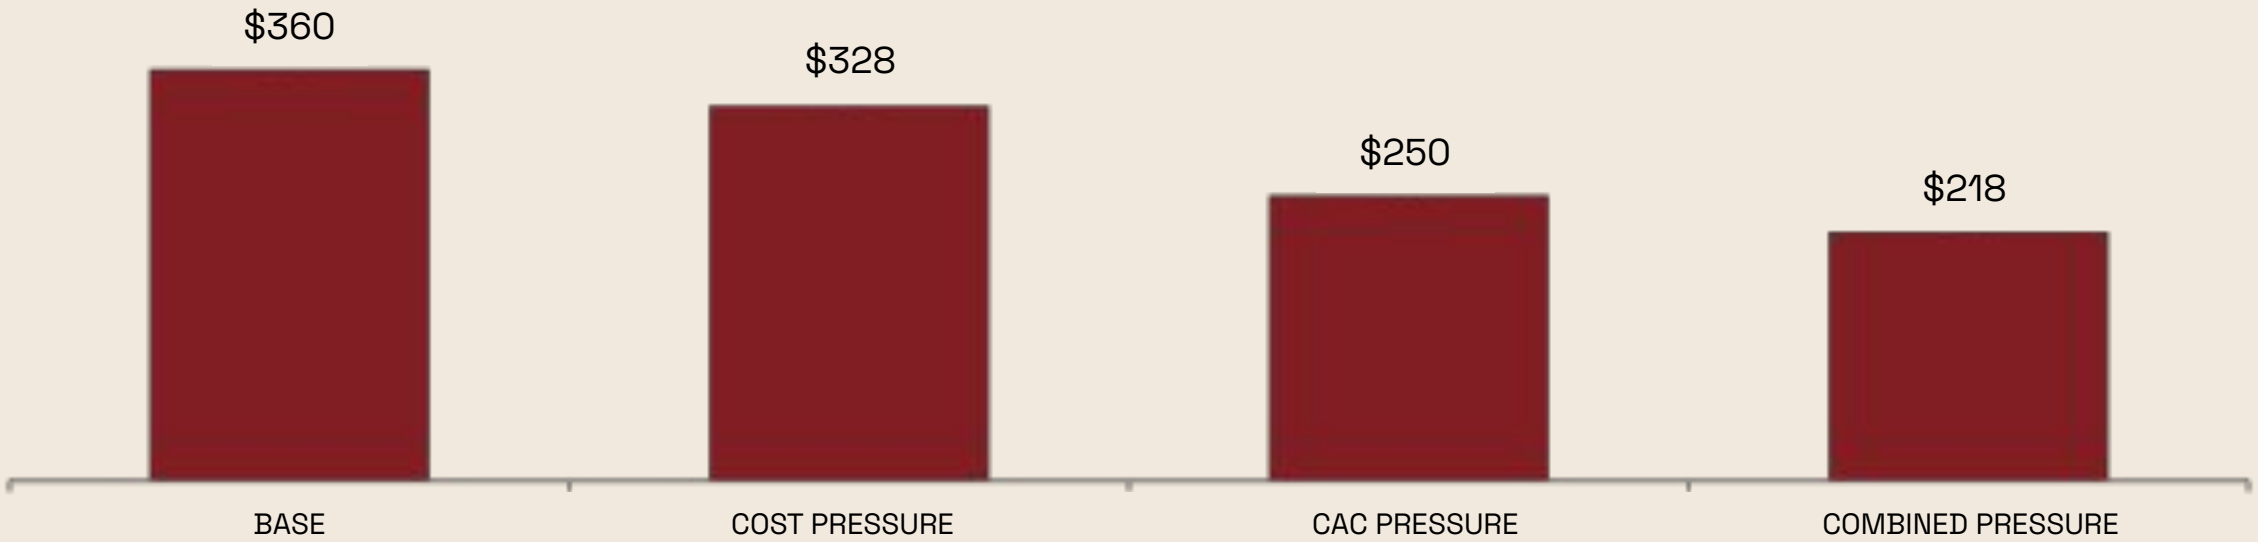

Model Boundary

Illustrative contribution before fixed overhead and launch investment. Positive unit contribution is not proof of profitability; validate costs, returns and CAC before scaling.

ILLUSTRATIVE DTC MODEL · UNVALIDATED INPUTS

A plan is only useful if it survives stress.

Illustrative stress test: +20% landed cost and/or 2× customer acquisition cost.

BASE	COST PRESSURE	CAC PRESSURE	COMBINED PRESSURE
CAC $110 · COST $160	CAC $110 · COST $192	CAC $220 · COST $160	CAC $220 · COST $192
Continue controlled testing; validate assumptions	Review sourcing and construction before commitment	Pause paid scaling; improve acquisition efficiency	Hold expansion; reassess product and channel economics

DECISION RULE Positive contribution is necessary, not sufficient. Scale requires validated margins above approved hurdles, with fixed costs assessed separately.

Messaging that moves from feeling to proof.

AWARENESS

Establish the leisure worldview and a recognizable product silhouette.

CONSIDERATION

Demonstrate material quality, construction details and functional differentiation.

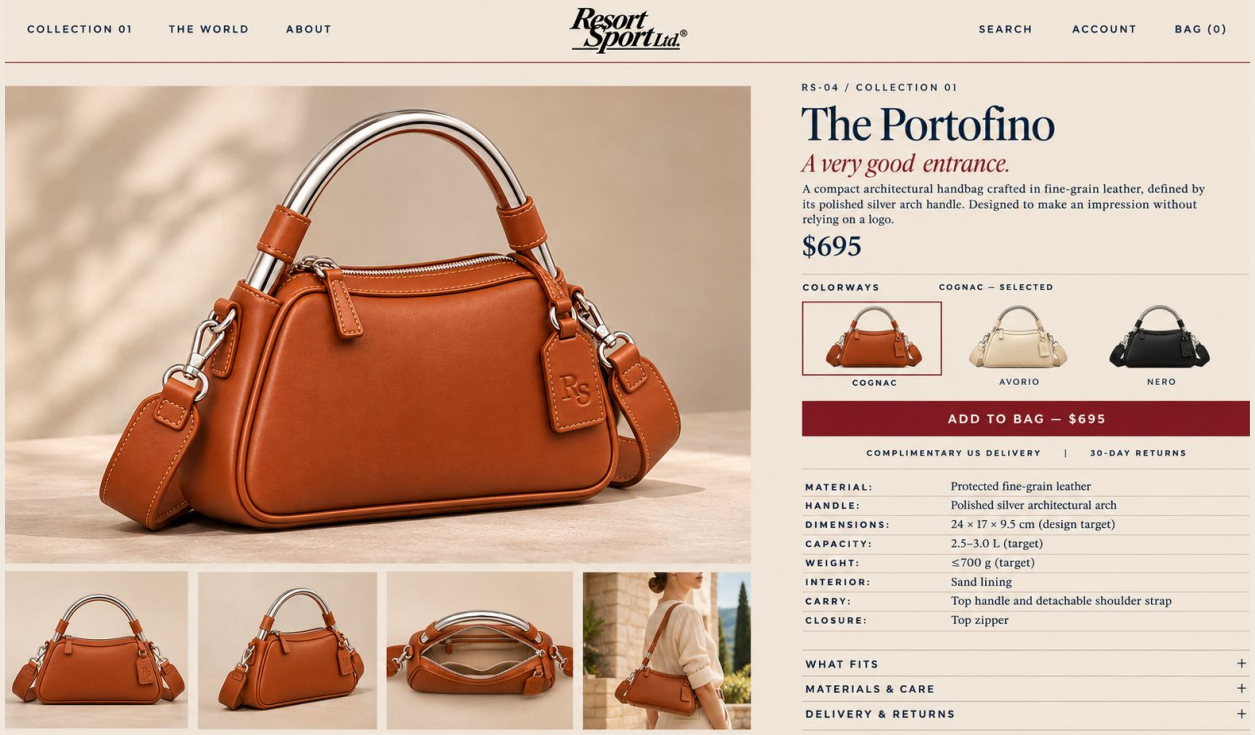

DECISION

Provide dimensions, scale, capacity, delivery and returns information.

POST-PURCHASE

Deliver ownership guidance, care support and relevant collection discovery.

Make the product page do the selling.

01 Show

Hero silhouette, alternate angles, on-body scale and interior

02 Explain

Materials, signature hardware, construction and functional benefits

03 Reassure

Verified dimensions, weight and capacity; care, delivery and return policies

04 Close

Clear colorway selection, transparent pricing, availability and a primary purchase action

CONVERSION PRINCIPLE Every product-page element should either increase desire, substantiate value or remove a reason not to purchase.

Out of office.
In our element.
ResortSport Ltd.
COLLECTION 01

One campaign. Different jobs across the funnel.

Out of office.
In our element.

Design worth
recognizing.

A very good
entrance.

Still thinking
about this one?

AWARENESS

Introduce the leisure worldview and establish visual recognition.

CONSIDERATION

Demonstrate distinctive design, materials and functional value.

DECISION

Remove purchase friction with product proof and service reassurance.

RETARGETING

Reconnect with demonstrated interest through relevant product messaging, without discount pressure.

CREATIVE PROGRESSION / EMOTION → PRODUCT EVIDENCE → REASSURANCE → RECONNECTION

Earn attention before buying reach.

Owned / site + email	HIGH	Build the primary conversion destination, capture intent, educate buyers and develop direct customer relationships.
PR + cultural seeding	HIGH	Earn third-party credibility through selective design, fashion, travel and leisure storytelling.
Creator partnerships	HIGH	Demonstrate product scale, styling and everyday relevance through creators with strong aesthetic alignment.
Paid social + search	TEST	Validate messaging, creative response and acquisition economics before increasing investment.
Physical experiences	SELECTIVE	Use intimate events or partnerships where tactile product experience can resolve a meaningful purchase barrier.

ALLOCATION PRINCIPLES Prioritize credibility-building and owned conversion infrastructure. Expand paid investment only after creative response, conversion behavior and acquisition economics demonstrate sufficient potential.

The relationship doesn't end at conversion.

JOIN THE TIME OFF CLUB	COLLECTION 01	A PRODUCT BECOMES AVAILABLE	PURCHASE CONFIRMED	EDITORIAL REACTIVATION
WELCOME	LAUNCH	WAITLIST	ORDER	LIMITED ISSUE
We'll keep this brief.	Out of office. In our element.	You asked us to write. So we are.	A fine choice.	Worth making an exception for.
EXPLORE COLLECTION	DISCOVER COLLECTION	VIEW PRODUCT	VIEW ORDER DETAILS	DISCOVER ISSUE
TRIGGER / AUDIENCE				
New subscriber	Eligible subscribers at collection release	Product availability for opted-in customers	Completed purchase	Relevant opted-in audience at release
OBJECTIVE				
Set expectations and introduce the brand.	Convert new interest into product discovery.	Activate explicit product intent.	Deliver clarity, care and reassurance.	Create a reason to return without a sale.

FIVE COMMUNICATION MOMENTS / TRIGGERED + CAMPAIGN SENDS / ONE CONSISTENT BRAND VOICE

Allocate capital in learning stages.

FOUNDATION	CREATIVE & PROOF	Fund first. Product photography, usage demonstrations and verified product information establish launch readiness.
FOUNDATION	OWNED & CRM	Build before demand generation. Ensure the site, email capture and customer journeys can convert and retain interest.
CREDIBILITY	EARNED & CREATORS	Fund selectively. Prioritize brand-fit relationships that build credibility and demonstrate real-world relevance.
VALIDATION	PAID TESTING	Release in controlled stages. Expand only when creative response, conversion behavior and acquisition economics support further investment.
OPTIONAL	EXPERIENTIAL	Keep conditional. Authorize only when audience fit, product-readiness and expected learning justify the cost.

INVESTMENT PRINCIPLES	Fund launch readiness first. Release discretionary growth spend against demonstrated customer response, conversion performance and contribution economics.

Sequence the launch to build conviction.

WEEKS 1–4

Prep

Validate prototype requirements, finalize product evidence, prepare e-commerce and CRM, and build the press and creator pipeline.

ADVANCE WHEN

Product readiness, claims and conversion infrastructure meet launch standards.

WEEKS 5–8

Reveal

Introduce the campaign world, establish Portofino as the hero, educate audiences on Rally, and activate earned and creator storytelling.

ADVANCE WHEN

Qualified interest and purchase-intent signals justify the planned product release. *Reveal builds qualified anticipation; Convert opens purchasing.*

WEEKS 9–12

Convert

Release the six launch SKUs, activate lifecycle and retargeting programs, and evaluate purchasing behavior, returns and early contribution economics.

ADVANCE WHEN

Initial performance supports continued optimization or a controlled increase in investment.

LAUNCH PRINCIPLE

Advance through readiness and customer evidence—not simply because the calendar says it's time.

LIMITED ISSUE 001

The Rally in *Curaçao.*

THE ROLE

Create a new moment of discovery through a limited color expression of an established silhouette. Test appetite for seasonal design while protecting the permanent collection.

RELEASE CONDITION

Proceed only after the core collection demonstrates credible demand and initial inventory performance supports another colorway.

Issue 001 creates the next conversation.

Measure the decisions, not just the metrics.

OUTCOME	SIGNAL	IF IT UNDERPERFORMS
Desire	Qualified waitlist; hero preference	Reassess positioning, creative and product appeal
Trust	Product-page engagement; purchase objections	Strengthen product proof and resolve credibility barriers
Conversion	Add-to-cart; checkout completion; return reasons	Diagnose information gaps, checkout friction and expectation mismatch
Economics	Contribution after acquisition; acquisition payback	Restrict investment; improve acquisition or cost structure
Loyalty	Repeat engagement; second-category interest	Improve post-purchase value and validate future assortment demand

Leading indicators guide early decisions; sales, returns, and contribution economics determine whether the model warrants scale.

EXECUTIVE CONTROL PANEL

Evidence determines the next move.

DECISION	EVIDENCE REQUIRED	EXECUTIVE ACTION
Defend or revise the hero	Product preference, objection patterns, conversion by silhouette	→ *Retain, refine or reconsider the lead product*
Fix before scaling	Checkout friction, returns, product-quality concerns	→ *Prioritize remediation over acquisition expansion*
Increase or restrict paid spend	Validated contribution margin, CAC and payback	→ *Release, reallocate or withhold capital*
Expand the assortment	Core SKU performance, incremental demand, inventory exposure	→ *Authorize or defer the next silhouette*
Strengthen retention	Post-purchase satisfaction, engagement and repeat intent	→ *Invest in care, CRM or experience improvements*

DECISION PRINCIPLE

Make reversible adjustments quickly. Require stronger evidence before committing inventory, production capacity or growth capital.

Decision rights and accountability.

DECISION AREA	DECISION OWNER / ACCOUNTABILITY	PARTNERS
Customer and competitive intelligence	PMM leads synthesis	Research + Product
Positioning and messaging	PMM accountable	Brand + Creative
Product readiness and claims	Product + Operations approve; PMM defines customer-facing requirements and evidence standards.	Quality + Legal
Price and financial guardrails	Finance and GM approve; PMM recommends	Finance + Product
Integrated launch	PMM owns the integrated GTM plan; channel leaders own execution.	Growth + PR + Ecommerce
Scaling capital	GM and Finance authorize	PMM + Growth propose

LEADERSHIP PRINCIPLE

Marketing owns the customer and market perspective, aligns cross-functional execution, and recommends investment priorities. Product, Operations and Finance retain their respective technical and financial approval authority.

Three executive authorization gates.

GATE 1

Product

Validate prototype quality, carry comfort, hardware durability and target cost. Early market validation informs production commitment.

AUTHORIZES

Production commitment.

GATE 2

Market

Establish product preference, willingness to pay and purchase intent through concept testing, prototype feedback and qualified customer research.

AUTHORIZES

Commercial launch.

GATE 3

Scale

Validate acquisition economics, return rates and contribution margin against approved hurdles.

AUTHORIZES

Increased growth investment.

Investment follows evidence. Not enthusiasm.

STRATEGIC OUTCOME

An ambitious brand. *A disciplined launch.*

Portofino establishes the signature.

Rally broadens the opportunity.

The collection creates room to grow.

AN INTEGRATED BRAND, PRODUCT AND GTM SYSTEM DESIGNED TO BUILD DEMAND BEFORE COMMITTING TO SCALE.

ResortSport Ltd.®

OFFICIAL EQUIPMENT FOR TIME OFF.

Working assumptions and handoff.

LOCKED BRAND STANDARDS

Exterior branding: RS only; full wordmark permitted on interior patches.

Hardware: brushed silver-tone; Portofino aluminum arch subject to validation.

Interiors: Sand lining across the collection.

Permanent colorways: Heritage, Avorio, Cognac, Nero.

Limited Issue palette: Curaçao, Negroni, Limoncello, Bijou.

Proposed service policies: complimentary US delivery and 30-day returns.

OPEN COMMERCIAL VARIABLES

Actual manufacturing cost, fabrication quality and product durability.

Customer preference, willingness to pay and purchase intent.

Acquisition cost, conversion performance and channel economics.

Fulfillment, packaging, returns and service costs.

Production capacity, inventory commitments and launch timing.

PROJECT STATUS

Independent, self-initiated brand concept. Product specifications, financial models and launch assumptions are illustrative and require validation before commercialization.

Use breadth to expand, never to blur

Riviera

RESORT CARRY / LEISURE CREDIBILITY

Monaco

WEEKEND TRAVEL / TRAVEL CREDIBILITY

Regatta

WORK-TO-WEEKEND / FUNCTIONAL BRIDGE

EXPANSION PRINCIPLE

Introduce new silhouettes only when customer demand supports a distinct use occasion, the design strengthens brand recognition, and projected economics justify the added complexity.
